---

Good morning Mike and Brewster,

Attached please find PEA appendices N (Flow Data) and Q, (Pipeline Repair/Replacement and Inspection). Both appendices contain Confidential and Protected Materials pursuant to PUC Section 583, GO 66-D, and D.17-09-023. Additionally attached is the Declaration for the Confidential information that is part of the Motion to File Under Seal.

Please let me know if you have any questions.

**Subject:** RE: [EXTERNAL] RE: RE: RE: Ventura Compressor Station Modernization Project, Pre-filing check-in

Good morning Mike and Brewster,

We had to refile per the Dockett office's direction. Dockett office told us they would keep the filing date if we resolved within 10 days. Attached is the Reserving after we Refiled on Tuesday. Yesterday, the Dockett office accepted the filing and issued an application #. The Application number is A.23-08-019.

We did file a motion for leave to file under seal the confidential versions of appendices n (Flow Data) and q, (Pipeline Repair/Replacement and Inspection). I am working through a couple of administrative items and plan to have those to you hopefully later today, no later than Tuesday (Monday is holiday).

I am working through the GO-177 Project Notice compliance items today and may not be able to close things out so that I can get these confidential documents to you. I apologize for this delay.

Good morning Mike,

We have run into an issue related to the confidential items with the application being accepted by the docket office. We heard back yesterday there was an issue with the filing, and they rejected the application as filed. We are working through the issue and plan to resolve as soon as possible. We are looking to resolve today!

So, it's us, not the Dockett office.

Stay tuned.

Hey Brewster,

We will upload the flow data and maintenance pipe repair information that is confidential and will be filed under a motion to seal as soon as we are able.

We have been a little delayed as the Application has not been accepted at the Docket yet. We are pending an application number to file the motion and continue our noticing requirements.

As soon as we have it marked appropriately, we will upload it for you.

Thanks.

Good morning, [REDACTED] —

Our cultural staff received the record search info. One last bit of PEA material is the flow data (Appendix N). Are you able to transmit that to me separately or post it to Aspen's sharepoint folder?

Thanks – I think with this, we would have everything in hand.

Hi [REDACTED]—

Thanks for the note. I am asking the Aspen folks to begin today. We are using the downloads from your website.

For the GIS, AQ, and Mailing List files, would you be able to upload copies of them to an Aspen sharepoint drive? Copying a link for you and I'll invite you to this folder.

[2023-08 from SoCalGas \[aspeneg-my.sharepoint.com\]](#)

Congratulations on getting through the milestone of filing.

Good afternoon, Brewster, Mike and Susan,

We filed the CPCN Application this afternoon and it is posted on our website at the following link:  
<https://www.socalgas.com/regulatory/ventura-compressor-modernization>

We are express mailing the discs as required by the Docket Office for filing which include the native files but not the confidential information which will be filed under seal.

The cultural files will be shared archaeologist to archaeologists as we discussed at our last meeting.

We can transfer the native files directly to you via file share link or Kiteworks. I believe the share link is preferable to Aspen. We can work that out.

Just wanted to quickly let you know that we had filed, and the documents (public) are posted on our website.

We look forward to continuing to further our working together.

Regards,

Thank you.

I just sent an invitation for a meeting on Teams for 8/2, 10AM to 11AM.

If the utility or agency prefer a different platform, like webex, that is fine with me. I can cancel the Teams meeting if I see a replacement invitation.

Hi Brewster,

We appreciate you reaching out for a check-in. As you can imagine we are furiously working towards the filing next month.

We would like to get together for a check-in, but can we meet the following week of July 31 – August 4?

If you can let us know your availability that week, we can work out a time for our check-in.

Thank you!

To SoCalGas team –

Please let us know if you are interested in setting a time for a check-in.

Monday/Tuesday 7/24-25 between 10:30 – 3:00 are available and open times for us. Other options could work if this is too soon.

Thanks.  
- Brewster
