Alexandra,
The CPUC will be acting as CEQA Lead Agency for the Ventura Compressor Station Modernization Project, but the Application submitted by SoCalGas is not yet complete. When complete, the CPUC will be filing a Notice of Preparation with the State Clearing House. I have copied the CPUC Environmental Consultant to confirm that I have provided the correct process information.
Thanks,
Michael Rosauer

Hello,

Thank you for your response. Can someone from CPUC confirm if this project has been submitted to the State Clearinghouse yet? If it has not, there is no way for our staff to record State Agency comments made for this project.

If the project will be filed with the SCH, I recommend that Caltrans resubmits their comments at that

point.

Thank you,

Morning all,

Jaden, I believe your response was based on the recent project notice (attached) we served on Agencies for the filing of our CPCN Application Ventura Compressor Modernization Project (A.23-08-019) as required by CPUC General Order 177.

The CPUC will be the lead agency for CEQA on this project. I have cc'd Michael Rosauer the CPUC CEQA Project Manager assigned to our application.

Hello,

Thank you for your email. Can you please confirm if a SCH number is known for this project? Our staff did not see this project in our system, meaning it may not have been submitted to the State Clearinghouse yet. If it has not been submitted to us by the lead agency, we cannot post your comments.

Thank you,

Good afternoon [REDACTED],

Apologies for the delayed response. Please see the attached for your consideration.

Thank you for including the California Department of Transportation (Caltrans) in the environmental review process for this EA. Attached is Caltrans' response letter.

If you have any questions, please feel free to contact me and refer to GTS# 07-VEN-2023-00558.
